THE GOLDEN LEGEND

SAINT LEO COLLEGE
SAINT LEO, FLORIDA

The Joy of Growth . . .

These are the good
years,

The time of search,

Reaching for
maturity,

Working toward
fulfillment.

We lay our
foundations.

We form forever

The mold of our
minds.

We send out roots,

Anchoring ourselves

In the fertile soil of
intellect,

Budding forth

In the springtime of
our growth.

It is excitement,

Bewilderment,

With sudden tears

And light sorrows.

It is deep happiness.

Francine: "Oh, what fools ye mortals be."

Minds . . .

Registration, like all new beginnings, is unsettling and challenging. Finding our way about campus, discovering new friends, lining up courses, seeing how heavy or light a credit load we can carry, all the details of getting settled in our new college life, add up to days of excitement and adventure.

Reaching Toward Goals . . .

Right after we have gotten into the swing of studies, the annual scholarship convocation is held to remind us of the importance and necessity of our academic achievements. A distinguished educator visits the campus to talk with us and public recognition is given to our scholars who have achieved high academic standing.

The annual lecture-seminar series brings to our campus noted men from various fields of the arts and sciences. These leaders in the world of thought come for two-day sessions. After their lectures they chat with us in informal seminar sessions. Our lives become enriched through this close association and mutual exchange of inquiry and knowledge.

Acting . . .

The English Literature Through Drama class, under the direction of Mr. Norman Ames, presented scenes from Macbeth for their families during annual Parent's Week. The dramatists did a creditable job with their lines. The star of the show was Dan Flanagan who roared about the stage with all the fire and virility of the flesh-and-blood king himself.

We have stopped growing when we have stopped learning.

Looking for New Ones . . .

The search is eternal. But the sacrifice of self commitment keeps the labors of the mind fresh and new. Growth may seem imperceptible. But as each facet of the mind becomes refined and polished, there is joy in small accomplishments that required long hours of patience and study and research and ingenuity and inventiveness and care.

Conceiving Coalescence.

The Golden Legend is not just a publication you hold in your hands—a book with a story between its covers. There are a multitude of invisible intangibles on every page: the perspiration of meeting deadlines; the writing and rewriting of copy; the arranging and rearranging of layouts; the night-and-day schedule of dedication. And now that it is finished—thank God.

The Saint Leo Golden Monarchs had an off and on season. An example of this fluctuation can be seen in a comparison with Stetson University. The Monarchs played the same road games as Stetson. The Monarchs lost every game and Stetson won every one. Then the Monarchs played Stetson and stayed behind up to the end. With ten minutes to go they were ten points behind and brought it up to one point behind with thirty seconds to go. Then Stetson had two foul shots. They hadn't missed any throughout the game. They missed both of these. With fifteen seconds to go, the Monarchs captured the ball and scored two points to win 79-78.

Victories over the University of South Florida, the University of Florida Gators, and a double overtime tie with undefeated Dade at Miami, shows the resurgence of the roaring Monarchs' comeback trial after a series of earlier defeats.

The intramural program made a big stride this year. The program has expanded from six to eighteen teams to accomodate the increase in students. The teams have been divided into two divisions, the North and the South. To add to the excitement, there are playoffs between the top teams in each league to determine the champion team for each particular sport.

The sports included in the program are ripcord, football, volleyball, basketball, track, and softball. This variety gives each student a better chance to excel in one sport even though he may not be proficient in another.

Recognition is given to individual students who excel in their field. Most valuable player awards are given in each sport and All Star teams are chosen from the top players of all the teams.

Our congratulations go to Don Acker who devoted much of his time to make this program run efficiently.

Coach Robert Sullivan ponders the intramural enigma of the proper attire for his boys attending charm school.

Although there are only three from last year's squad on the track team, Jim Beck, Doug Barry, and Mike Tremmel, a strong group of freshmen with plenty of high school experience gives the team a full complement of contenders in sprints, middle distance, long distance, pole vault, broad jump, hurdles, and weights. Our experienced cross-country runners will also lend strength to the team. As of this writing a schedule is being lined up with most of the junior colleges in Florida, and Saint Leo trackmen will go to the state meet.

The Saint Leo Cross Country Team first came into being this fall under the direction of Father Martin Guiteras, O.S.B. It competed against Manatee, Central Florida, St. Petersburg, Miami-Dade, Pensacola, and other junior colleges throughout the state including the State Championships at the University of Florida. With hard work and one of the toughest courses in the state, the team ended the season with a perfect record.

Under the leadership of Coach Robert Sullivan, the '65 Monarchs will be captained by a strong North-South combination of Pete Mulry from Rutherford, N. J., and Rodney Williamson, Jacksonville, Fla. Despite only five returning lettermen, this year the team shows considerable experience and will pose tough competition for all opponents.

As we go to press approximately four week-end trips are scheduled. Such teams as Broward, Edison, and Manatee Jr. Colleges will play host to the Monarchs. A seven-day road trip to the Ft. Lauderdale area during the Easter break will climax the away games.

If the young Monarch team can maintain its agility and depth through the long season, the solid pitching and clutch hitting will prove this '65 team the best in St. Leo history.
